### PROFESSIONAL SUMMARY

Pursuing a B.S. in Computer Science and an M.S. in Software Engineering at Villanova University with hands-on experience in full-stack development, UI/UX design, and cybersecurity fundamentals. Built and deployed responsive web and mobile applications using React, React Native, and Swift. Experienced in designing REST APIs, managing Git-based workflows, and implementing secure authentication systems. Interested in software engineering and application security roles where performance, usability, and scalability intersect.

### TECHNICAL EXPERIENCE

#### Pixel Putt | Unity, C#

- Developed a 3D mini golf game featuring randomized hole generation and interactive power-ups.
- Implemented physics-based mechanics for ball movement and collision handling to ensure smooth gameplay.

#### Slices | JavaScript, HTML, React, Firebase

- Built a fast-paced puzzle game where players solve as many randomized puzzles as possible within 60 seconds.
- Integrated score tracking and account creation features to enhance user engagement.

### OTHER EXPERIENCE

#### Access Services Technician

*Villanova University, Villanova, PA | October 2023 – Present*

- Assist patrons with basic technology needs, including computer troubleshooting, printer/scanner support, and navigation of digital resources.
- Help users access online databases, e-books, and research tools, offering guidance on search strategies and digital literacy skills.
- Assist with public computers, including helping patrons understand file management, web navigation, and basic coding or STEM-related resources when applicable.

#### STEM Activity Specialist

*ESF Camps, Chester Springs, PA | June 2018 – August 2024*

- Designed and led age-appropriate coding activities for campers ages 8–14 using tools such as Scratch, Code.org, and introductory Python.
- Taught foundational computer science concepts, including algorithms, loops, conditionals, and debugging, through hands-on projects and interactive lessons.
- Guided campers through creating simple programs, games, and animations, fostering creativity and computational thinking.
- Provided individualized support to help campers troubleshoot code, understand concepts, and gain confidence with technology.

### EDUCATION

#### Master of Science in Software Engineering

*Villanova University, Expected May 2027*

#### Bachelor of Science in Computer Science | 3.79/4.0

*Villanova University, Expected May 2026*

### TECHNICAL SKILLS

- Programming: C, C++, Python, Java, JavaScript, SQL
- Web & Mobile Development: React, React Native, HTML, CSS, Swift, WordPress
- Tools & Platforms: Git, VMware, Unity, Adobe Creative Suite, Microsoft Office
- UI/UX Design and Graphic Design
- Software Development: Full-Stack Development, Agile Workflows, Version Control
